

VILLAGE OF BURNHAM
14450 S. Manistee Avenue
Burnham, Illinois 60633
Robert E. Polk, Mayor

August 3, 2021

Dear Residents

The Village of Burnham is progressing with our capital programs. The Illinois Department of Transportation, weather permitting, will soon finish the Torrence Avenue project. This is **our** tax dollars invested in Burnham.

The Village will be doing another round of sidewalk and street repairs later this year. Unfortunately, with our limited budget, we cannot make every repair this year, but we will continue repairs next year.

We have listened to our residents' concerns regarding drivers in our Village who refuse to slow down and are driving **too fast**, posing a risk to our children and residents. Therefore, we will begin to install traffic calming devices.

Please help keep our Village clean by picking up any visible litter on your property. Where applicable cut weeds and trees on your property that are close to your neighbor's property. Keep your fences and area behind your garage free from weeds and debris.

Some of our families have multiple vehicles, and parking is limited on our streets. Please be respectful when parking, and allow a parking space in front of the home of the residing resident.

The summer celebrations continue, please play your music at a moderate tone, place trash in the garbage cart and secure the lid. Please respect your neighbors.

Let us work together to keep our Village and families safe. **If you see something, say something.** Dial 911 for an emergency or Dial 708-891-2122 for a non-emergency.

In summary, it is always appreciated when we work together to make Burnham the best Village in the Southland. Visit our website *Burnham-il.gov* for updates on Village news and events.

Respectfully

Robert E. Polk
Mayor, Village of Burnham
